

How to make an embroidery with Coloreel

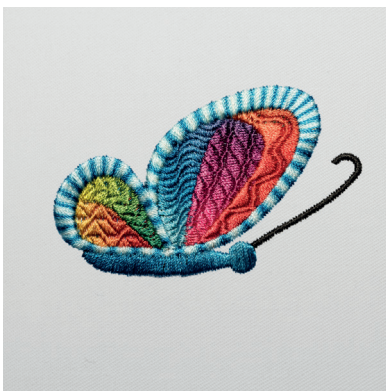

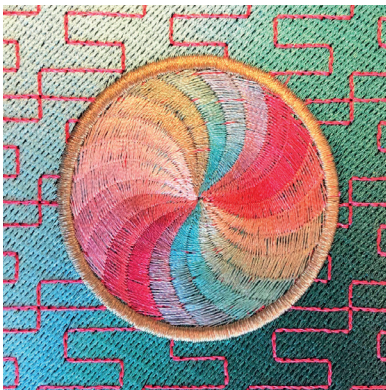

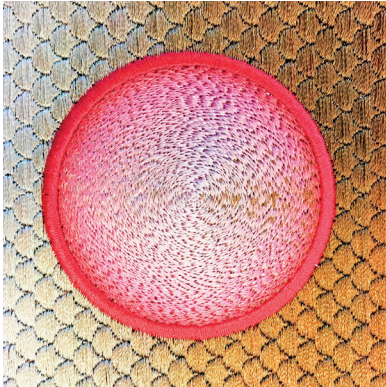

COLOREEL[®]
One thread. Unlimited colors.

Eight steps to vibrant Coloreel embroideries

- 1 Create your own unique Coloreel embroidery design using any digitizing software.
- 2 Save your design as a DST file.
- 3 Open the DST file in Coloreel Studio, our embroidery colorization software.
- 4 Choose any number of solid colors, smooth color transitions or any type of effect that you can imagine.
- 5 Input the DST file into your embroidery machine.
- 6 Input the Coloreel Studio file into your Coloreel unit.
- 7 Start your embroidery machine.
- 8 Watch the future of embroidery taking place in front of your own eyes!
